Note to Contributors

Crossings: A Journal of English Studies is an annual double-blind peer-reviewed journal of scholarly articles and book reviews. The articles involve, but are not limited to, issues related to language, literature, culture, and pedagogy. It is a discursive platform to critically examine human behavior and communication, and their larger role in society as well as in knowledge production.

Contributions should not have been previously published or be under consideration for publication elsewhere. Each submission undergoes a rigorous double-blind peer-review process and only those articles recommended by the reviewer will be considered for publication. Reviews may take four to six months to complete after the submission deadline.
